**Queen of the Mountaineers** Cathryn J. Prince, 2019-05-07 Fanny Bullock Workman was a complicated and restless woman who defied the rigid Victorian morals she found as restrictive as a corset. With her frizzy brown hair tucked under a helmet, Workman was a force on and off the mountain. Instrumental in breaking the British stranglehold on Himalayan mountain climbing, this American woman climbed more peaks than any of her peers and became the first woman to map the far reaches of the Himalayas and the second to address the Royal Geographic Society of London, whose past members included Charles Darwin, Richard Francis Burton, and David Livingstone. Her books—replete with photographs, illustrations, and descriptions of meteorological conditions, glaciology, and the effect of high altitudes on humans—remained useful decades after their publication. Paving the way for a legion of female climbers, Workman's legacy lives on in scholarship prizes at Wellesley, Smith, Radcliffe, and Bryn Mawr. Author and journalist Cathryn J. Prince brings Fanny Bullock Workman to life, revealing how she navigated the male-dominated world of alpine clubs and adventure societies as nimbly as she navigated the deep crevasses and icy granite walls of the Himalayas. *Queen of the Mountaineers* is the story of one woman's role in science and exploration, breaking boundaries and charting frontiers for women everywhere.

Little Nation and Other Stories Alejandro Morales,2014-09-30 "I'm sick of you punks," Micaela said. "And I'm warning you now. I'm going to get you for that murder!" In the title story, the Latino community in East L.A. suffers horrible gang-related violence, and the rape and murder of a 15-year-old girl is the last straw for Micaela Clemencia, a local teacher. With the help of other women in the neighborhood, Micaela keeps her promise to punish the murderer. And much to the dismay of the police and other city officials, the women take control of the barrio, their "little nation." While some characters face a violent world driven by greed, others long for a sense of belonging or a place to call their own. In "Mama Concha," a grandmother shares her ancient wisdom with her grandson, teaching him to appreciate the land and the fruits and vegetables she grows. In "The Gardens of Versailles," a home with beautiful gardens is a local favorite, until it stands in the way of "progress" that will benefit the entire community. And in "Prickles," an artist who is a grotesque oddity because of the thorny tumors that sprout all over his body develops a special, unusual relationship with the Virgin of Guadalupe. Alejandro Morales returns to his native Southern California community of Montebello in four of these five stories that examine identity and injustice. Originally written in Spanish, this compelling collection contains Adam Spires' English translation of these thought-provoking stories, in which Morales explores the Chicano community's marginalization and search for a space to call its own.

**A Thousand Trails Home** Seth Kantner,2021-09-01 2023 Independent Publisher Book Award GOLD in Environmental/Ecology 2022 National Outdoor Book Award Winner in Natural History Literature A Thousand Trails Home is a book of supernal majesty, a book to break and restore your heart. Seth Kantner's devotion to the living pulse and unity of the skein of wonder that is the Alaskan wilderness haunts and inspires me. -- Louise Erdrich, author of The Night Watchman Bestselling, award-winning author of Ordinary Wolves, a debut novel Publisher's Weekly called "a tour de force" Conservation-based story of changing Arctic from an on-the-ground perspective Features full-color photography throughout A stunningly lyrical firsthand account of a life spent hunting, studying, and living alongside caribou, A Thousand Trails Home encompasses the historical past and present day, revealing the fragile intertwined lives of people and animals surviving on an uncertain landscape of cultural and climatic change sweeping the Alaskan Arctic. Author Seth Kantner vividly illuminates this critical story about the interconnectedness of the Iñupiat of Northwest Alaska, the Western Arctic Caribou Herd, and the

larger Arctic region. This story has global relevance as it takes place in one of the largest remaining intact wilderness ecosystems on the planet, ground zero for climate change in the US. This compelling and complex tale revolves around the politics of caribou, race relations, urban vs. rural demands, subsistence vs. sport hunting, and cultural priorities vs. resource extraction—a story that requires a fearless writer with an honest voice and an open heart.

Based on City College of San Francisco's CHW Certificate Program, it begins with an overview of the historic and political context informing the practice of community health workers. The second section of the book addresses core competencies for working with individual clients, such as behavior change counseling and case management, and practitioner development topics such as ethics, stress management, and conflict resolution. The book's final section covers skills for practice at the group and community levels, such as conducting health outreach and facilitating community organizing and advocacy. Covering topics from health inequalities to patient-centered counseling, this book is a tremendous resource for both scholars of and practitioners in the field of community-based medicine. Farmer, MD., PhD, Maude and Lillian Presley Professor of Social Medicine in the Department of Global Health and Social Medicine at Harvard Medical School; founding director, Partners In Health. This book is based on the contributions of experienced CHWs and advocates of the field. I am confident that it will serve as an inspiration for many CHW training programs. Yvonne Lacey, CHW, former coordinator, Black Infant Health Program, City of Berkeley Health Department; former chair, CHW Special Interest Group for the APHA.
