Founders of American Industrial Design Carroll Gantz, 2014-07-17 As the Great Depression started in 1929, several dozen creative individuals from a variety of artistic fields, including theatre, advertising, graphics, fashion and furniture design, pioneered a new profession. Responding to unprecedented public and industry demand for new styles, these artists entered the industrial world during what was called the Machine Age, to introduce modern design to the external appearance and form of mass-produced, functional, mechanical consumer products formerly not considered art. The popular designs by these machine designers increased sales and profits dramatically for manufacturers, which helped the economy to recover; established a new profession, industrial design; and within a decade, changed American products from mechanical monstrosities into sleek, modern forms expressive of the future. This book is about those industrial designers and how they founded, developed, educated and organized today's profession of more than 50,000 practitioners.

The Image of the City Kevin Lynch, 1964-06-15 The classic work on the evaluation of city form. What does the city's form actually mean to the people who live there? What can the city planner do to make the city's image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City, formulates a new criterion—imageability—and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the

planner, and certainly the city dweller will all want to read this book.

Club 57 Ronald S. Magliozzi, Glenn D. Lowry, J. Hoberman, Jenny Schlenzka, Laura Hoptman, Lucy Gallun, Ann Magnuson, 2017 An in-depth examination of the iconic alternative space Club 57. Located in the basement of a Polish Church

at 57 St. Marks Place, Club 57 (1978-83) began as a no-budget venue for music and film exhibitions, and quickly took pride of place in a constellation of countercultural venues in downtown New York fuelled by low rents, the Reagan presidency and the desire to experiment with new modes of art, performance, fashion, music and exhibition. A centre of creative activity in the East Village, Club 57 is said to have influenced virtually every club that came in its wake. Published to accompany the first major exhibition to examine the scene-changing, interdisciplinary life of downtown New York's seminal alternative space in full, *Club 57: Film, Performance, and Art in the East Village, 1978-1983* taps into the legacy of Club 57's founding curatorial staff to examine how the convergence of film, video, performance, art and curatorship in the club environment of New York in the 1970s and 1980s became a model for a new spirit of interdisciplinary endeavour. The richly illustrated publication will feature film and video stills; photographs of Club event and activities; ephemeral documents such as flyers, posters and period zines; and a robust plate section of rarely-seen artwork from the period by the likes of Keith Haring, Kenny Scharf, Tseng Kwong Chi, Kitty Brophy, Fab Five Freddy, Richard Hambleton, Dan Asher, Ellen Berkenblit and John Sex.

Creativity, Inc. (The Expanded Edition) Ed Catmull, Amy Wallace, 2014-04-08 The co-founder and longtime president of Pixar updates and expands his 2014 New York Times bestseller on creative leadership, reflecting on the management principles that built Pixar's singularly successful culture, and on all he learned during the past nine years that allowed Pixar to retain its creative culture while continuing to evolve. "Might be the most thoughtful management book ever."—Fast Company For nearly thirty years, Pixar has dominated the world of animation, producing such beloved films as the Toy Story trilogy, Finding Nemo, The Incredibles, Up, and WALL-E, which have gone on to set box-office records and garner eighteen Academy Awards. The joyous storytelling, the inventive plots, the emotional authenticity: In some ways, Pixar movies are an object lesson in what creativity really is. Here, Catmull reveals the ideals and techniques that have made Pixar so widely admired—and so profitable. As a young man, Ed Catmull had a dream: to make the first computer-animated movie. He nurtured that dream as a Ph.D. student, and then forged a partnership with George Lucas that led, indirectly, to his founding Pixar with Steve Jobs and John Lasseter in 1986. Nine years later, Toy Story was released, changing animation forever. The essential ingredient in that movie's success—and in the twenty-five movies that followed—was the unique environment that Catmull and his colleagues built at Pixar, based on philosophies that protect the creative process and defy convention, such as:

- Give a good idea to a mediocre team and they will screw it up. But give a mediocre idea to a great team and they will either fix it or come up with something better.
- It's not the manager's job to prevent risks. It's the manager's job to make it safe for others to take them.
- The cost of preventing errors is often far greater than the cost of fixing them.
- A company's communication structure should not mirror its organizational structure. Everybody should be able to talk to anybody.

Creativity, Inc. has been significantly expanded to illuminate the continuing development of the unique culture at Pixar. It features a new introduction, two entirely new chapters, four new chapter postscripts, and changes and updates throughout.

Pursuing excellence isn't a one-off assignment but an ongoing, day-in, day-out, full-time job. And Creativity, Inc. explores how it is done.

Revolution and World Politics Fred Halliday,1999-08-23 The relation of revolutions to international relations is central to modern history. Revolutions have, as much as war or nationalism, shaped the development of world politics. Equally, revolutions have been, in cause, ideology and consequence, international events. By putting the international politics of revolution centre stage, Fred Halliday's book makes a major contribution to the understanding of both revolution and world politics.

The 57 Bus Dashka Slater,2017-10-17 The riveting New York Times bestseller and Stonewall Book Award winner that will make you rethink all you know about race, class, gender, crime, and punishment. Artfully, compassionately, and expertly told, Dashka Slater's The 57 Bus is a must-read nonfiction book for teens that chronicles the true story of an agender teen who was set on fire by another teen while riding a bus in Oakland, California. Two ends of the same line. Two sides of the same crime. If it weren't for the 57 bus, Sasha and Richard never would have met. Both were high school students from Oakland, California, one of the most diverse cities in the country, but they inhabited different worlds. Sasha, a white teen, lived in the middle-class foothills and attended a small private school. Richard, a Black teen, lived in the economically challenged flatlands and attended a large public one. Each day, their paths overlapped for a mere eight minutes. But one afternoon on the bus ride home from school, a single reckless act left Sasha severely burned, and Richard charged with two hate crimes and facing life imprisonment. The case garnered international attention, thrusting both teenagers into the spotlight. But in The 57 Bus, award-winning journalist Dashka Slater shows that what might at first seem like a simple matter

of right and wrong, justice and injustice, victim and criminal, is something more complicated—and far more heartbreaking. Awards and Accolades for The 57 Bus: A New York Times Bestseller Stonewall Book Award Winner YALSA Award for Excellence in Nonfiction for Young Adults Finalist A Boston Globe-Horn Book Nonfiction Honor Book Winner A TIME Magazine Best YA Book of All Time A Los Angeles Times Book Prize Finalist Don't miss Dashka Slater's newest propulsive and thought-provoking nonfiction book, *Accountable: The True Story of a Racist Social Media Account and the Teenagers Whose Lives It Changed*, which National Book Award winner Ibram X. Free and Easy Website Design for Museums and Historic Sites Kelsey J. S. Ransick, 2015-12-16 Museums and historic sites faced with small budgets and staff can find it intimidating to redesign or create a website from scratch. Concerns over resources make coding and designing (or hiring someone to do so) daunting and expensive. It does not have to be so. Content creation is inescapable when making a website, but designing and constructing a unique website can be as simple as taking an afternoon to use a color chart to pick a color scheme and paste in text from a Word document. All of the tools discussed in the book are free at the base level, and some offer upgrade packages with even more features. The advice and techniques are all created with an eye to making websites work for smaller institutions with limited budgets and

timeframes. Every museum professional has come across issues when adapting general software for an institution's specific needs, and the information in this book will anticipate some of these needs by offering easy-to-implement workarounds and information on related software or services that integrate with each website. Features include: How-to guides for Wix, Weebly, WordPress, and Google Sites Detailed comparisons of WYSIWYG (What You See Is What You Get) editors by cost, features, and ease-of-use so that you can easily identify which platforms meet your needs Mythbusting of common website and computer assumptions Step-by-step content and design planning guide Basic HTML coding tricks and tips for the slightly more advanced users (or those who want to become so) • A free companion Web site includes links to online resources, ongoing updates to this book to keep it current, and links to other free online tools and software. Deep-Time Images in the Age of Globalization Oscar Moro Abadía, 2024 Zusammenfassung: This open access volume explores the impact of globalization on the contemporary study of deep-time art. The volume explores how early rock art research's Eurocentric biases have shifted with broadened global horizons to facilitate new conversations and discourses in new post-colonial realities. The book uses seven main themes to explore theoretical, methodological, ethical, and practical developments that are orienting the study of Pleistocene and Holocene arts in the age of globalization. Compiling studies as diverse as genetics, visualization, with the proliferation of increasingly sophisticated archaeological techniques, means that vast quantities of materials and techniques are now incorporated into the analysis of the world's visual cultures. *Deep-Time Images in the Age of Globalization* aims to promote critical reflection on the multitude of positive - and negative - impacts that globalization has wrought in rock art research. The volume brings new theoretical frameworks as well as engagement with indigenous knowledge and perspectives from art history. It highlights technical, methodological and interpretive developments, and showcases rock art characteristics from previously unknown (in the global north) geographic areas. This book provides comparative approaches on rock art globally and scrutinises the impacts of globalization on research, preservation, and management of deep-time art. This book will appeal to archaeologists, social scientists and art historians working in the field as well as lovers of rock art.

Shifting Images of the Hasmoneans Vered Noam, 2018-02-22 The shifting image of the Hasmoneans in the eyes of their contemporaries and later generations is a compelling issue in the history of the Maccabean revolt and the Hasmonean commonwealth. Based on a series of six Jewish folktales from the Second Temple period that describe the Hasmonean dynasty and its history from its legendary founders, through achievement of full sovereignty, to downfall, this volume examines the Hasmoneans through the lens of reception history. On the one hand, these brief, colorful legends are embedded in the narrative of the historian of the age, Flavius Josephus; on the other hand, they are scattered throughout the extensive halakhic-exegetical compositions known as rabbinic literature, redacted and compiled centuries later. Each set of parallel

stories is examined for the motivation underlying its creation, its original message, language, and the historical context. This analysis is followed by exploration of the nature of the relationship between the Josephan and the rabbinic versions, in an attempt to reconstruct the adaptation of the putative original traditions in the two corpora, and to decipher the disparities, different emphases, reworking, and unique orientations typical of each. These adaptations reflect the reception of the pristine tales and thus disclose the shifting images of the Hasmoneans in later generations and within distinct contexts. The compilation and characterization of these sources which were preserved by means of two such different conduits of transmission brings us closer to reconstruction of a lost literary continent, a hidden Jewish Atlantis of early pseudo-historical legends and facilitates examination of the relationship between the substantially different libraries and worlds of Josephus and rabbinic literature.

Zionists in Interwar Czechoslovakia Tatjana Lichtenstein, 2016-04-18 This book presents an unconventional history of minority nationalism in interwar Eastern Europe. Focusing on an influential group of grassroots activists, Tatjana Lichtenstein uncovers Zionist projects intended to sustain the flourishing Jewish national life in Czechoslovakia. The book shows that Zionism was not an exit strategy for Jews, but as a ticket of admission to the societies they already called home. It explores how and why Zionists envisioned minority nationalism as a way to construct Jews' belonging and civic equality in Czechoslovakia. By giving voice to the diversity of aspirations within interwar Zionism, the book offers a fresh view of minority nationalism and state building in Eastern Europe.
