The Image of Christ in Russian Literature John Givens, 2018-05-29 Vladimir Nabokov complained about the number of Dostoevsky's characters sinning their way to Jesus. In truth, Christ is an elusive figure not only in Dostoevsky's novels, but in Russian literature as a whole. The rise of the historical critical method of biblical criticism in the nineteenth century and the growth of secularism it stimulated made an earnest affirmation of Jesus in literature highly problematic. If they affirmed Jesus too directly, writers paradoxically risked diminishing him, either by deploying faith explanations that no longer persuade in an age of skepticism or by reducing Christ to a mere argument in an ideological dispute. The writers at the heart of this study understood that to reimage Christ for their age, they had to make him known through indirect, even negative ways, lest what they say about him be mistaken for cliché, doctrine, or naïve apologetics. The Christology of Dostoevsky, Leo Tolstoy, Mikhail Bulgakov, and Boris Pasternak is thus apophatic because they deploy negative formulations (saying what God is not) in their writings about Jesus. Professions of atheism in Dostoevsky and Tolstoy's non-divine Jesus are but separate negative paths toward truer discernment of Christ. This first study in English of the image of Christ in Russian literature highlights the importance of apophaticism as a theological practice and a literary method in understanding the Russian Christ. It also emphasizes the importance of skepticism in Russian literary attitudes toward Jesus on the part of writers whose private crucibles of doubt produced some of the most provocative and enduring images of Christ in world literature. This important study will appeal to scholars and students of Orthodox Christianity and Russian literature, as well as educated general readers interested in religion and nineteenth-century Russian novels.

Agents of Moscow Martin Mevius,2005-01-13 After 1945, state patriotism of the communist regimes in Eastern Europe was characterized by the widespread use of national symbols. In communist Hungary the party (MKP) widely celebrated national holidays, national heroes, erected national statues, and employed national street names. This 'socialist patriotism' had its origin in the 'national line' of the Comintern, established on Soviet instructions following the German invasion of the Soviet Union. At that time Stalin called the parties of the Comintern to oppose the Germans by issuing the call for national liberation. This policy continued after 1945 when, as an aid in the struggle for power, the MKP presented itself as both the 'heir to the traditions of the nations' and the 'only true representative of the interest of the Hungarian people'. Paradoxically however, the Soviet origins of the national line were also one of the main obstacles to its success as the MKP could not put forward national demands if these conflicted with Soviet interests. Martin Mevius' pioneering study reveals that what had started as a tactical measure in 1941 had become the self-image of party and state in 1953 and that the ultimate loyalty to the Soviet Union worked to the detriment of the national party - the MKP never rid itself of the label 'agents of Moscow'.

Ottolenghi Test Kitchen: Shelf Love Yotam Ottolenghi,Noor Murad,Ottolenghi Test Kitchen,2021-09-30 Relaxed, flexible home cooking from Yotam Ottolenghi and his superteam. Whether they're conjuring up new recipes or cooking for themselves at home, the Ottolenghi Test Kitchen team do what we all do: they raid their kitchens. But then, they turn whatever they find into approachable creations with an 'Ottolenghi' twist. This instinct is in perfect sync with recent times, when we've all been standing in front of our kitchen shelves, our cupboards and our fridges, wondering what to cook with what we've got; how to put a can of chickpeas or a bag of frozen peas to good use, instead of taking an extra trip to the shops. For the first time, the team welcome us into their creative space. These dishes pack all the punch and edge we expect from Ottolenghi, but offer more flexibility to make them our own, using what we've got to hand. There's the ultimate guide to

creamy dreamy hummus, a one-pan route to confit tandoori chickpeas and a tomato salad that rules them all. This book is all about feeding ourselves and our families with less stress and less fuss, but with all the 'wow' of an Ottolenghi meal. It's a notebook to scribble on and add to, to take its ethos and absolutely make it your own. This is how to cook, the OTK way.

Shifting Images of the Hasmoneans Vered Noam, 2018-02-16 The shifting image of the Hasmoneans in the eyes of their contemporaries and later generations is a compelling issue in the history of the Maccabean revolt and the Hasmonean commonwealth. Based on a series of six Jewish folktales from the Second Temple period that describe the Hasmonean dynasty and its history from its legendary founders, through achievement of full sovereignty, to downfall, this volume examines the Hasmoneans through the lens of reception history. On the one hand, these brief, colorful legends are embedded in the narrative of the historian of the age, Flavius Josephus; on the other hand, they are scattered throughout the extensive halakhic-exegetical compositions known as rabbinic literature, redacted and compiled centuries later. Each set of parallel stories is examined for the motivation underlying its creation, its original message, language, and the historical context. This analysis is followed by exploration of the nature of the relationship between the Josephan and the rabbinic versions, in an attempt to reconstruct the adaptation of the putative original traditions in the two corpora, and to decipher the disparities, different emphases, reworking, and unique orientations typical of each. These adaptations reflect the reception of the pristine tales and thus disclose the shifting images of the Hasmoneans in later generations and within distinct contexts. The compilation and characterization of these sources which were preserved by means of two such different conduits of transmission brings us closer to reconstruction of a lost literary continent, a hidden Jewish Atlantis of early pseudo-historical legends and facilitates examination of the relationship between the substantially different libraries and worlds of Josephus and rabbinic literature.

Planning for Equitable Urban Agriculture in the United States Samina Raja, Marcia Caton Campbell, Alexandra Judelsohn, Branden M. Born, Alfonso Morales, 2024 This open access book, building on the legacy of food systems scholar and advocate, Jerome Kaufman, examines the potential and pitfalls of planning for urban agriculture (UA) in the United States, especially in how questions of ethics and equity are addressed. The book is organized into six sections. Written by a team of scholars and practitioners, the book covers a comprehensive array of topics ranging from theory to practice of planning for equitable urban agriculture. Section 1 makes the case for re-imagining agriculture as central to urban landscapes, and unpacks why, how, and when planning should support UA, and more broadly food systems. Section 2, written by early career

and seasoned scholars, provides a theoretical foundation for the book. Section 3, written by teams of scholars and community partners, examines how civic agriculture is unfolding across urban landscapes, led largely by community organizations. Section 4, written by planning practitioners and scholars, documents local government planning tied to urban agriculture, focusing especially on how they address questions of equity. Section 5 explores UA as a locus of pedagogy of equity. Section 6 places the UA movement in the US within a global context, and concludes with ideas and challenges for the future. The book concludes with a call for planning as public nurturance an approach that can be illustrated through urban agriculture. Planning as public nurturance is a value-explicit process that centers an ethics of care, especially protecting the interests of publics that are marginalized. It builds the capacity of marginalized groups to authentically co-design and participate in planning/policy processes. Such a planning approach requires that progress toward equitable outcomes is consistently evaluated through accountability measures. And, finally, such an approach requires attention to structural and institutional inequities. Addressing these four elements is more likely to create a condition under which urban agriculture may be used as a lever in the planning and development of more just and equitable cities. .

Special Topics in Information Technology Barbara Pernici, 2019-10-01 This open access book presents nine outstanding doctoral dissertations in Information Technology from the Department of Electronics, Information and Bioengineering, Politecnico di Milano, Italy. Information Technology has always been highly interdisciplinary, as many aspects have to be considered in IT systems. The doctoral studies program in IT at Politecnico di Milano emphasizes this interdisciplinary nature, which is becoming more and more important in recent technological advances, in collaborative projects, and in the education of young researchers. Accordingly, the focus of advanced research is on pursuing a rigorous approach to specific research topics starting from a broad background in various areas of Information Technology, especially Computer Science and Engineering, Electronics, Systems and Controls, and Telecommunications. Each year, more than 50 PhDs graduate from the program. This book gathers the outcomes of the nine best theses defended in 2018-19 and selected for the IT PhD Award. Each of the nine authors provides a chapter summarizing his/her findings, including an introduction, description of methods, main achievements and future work on the topic. Hence, the book provides a cutting-edge overview of the latest research trends in Information Technology at Politecnico di Milano, presented in an easy-to-read format that will also appeal to non-specialists.

Renoir Scala Publishers, Ltd., 2006-06 Renoir masterfully created Luncheon of the Boating Party's enchanting mood by capturing a contemporary moment - 19th-century leisure on the Seine - and the universal appeal of celebration. He also combined several of the traditional categories of painting: still life, landscape, portraiture and genre. The result is a timeless work that captures the atmosphere of an idyllic place, where friends share the pleasures of food, wine and conversation. Scala's new 4-fold format is ideal for displaying this exquisite painting. It showcases archival photographs that identify the

revellers, and x-rays of the painting, which reveal little-known compositional changes, as well as details and images that fold out to bring this late 19th-century icon to life. 38 colour & 19 b/w illustrations

Shipwreck in French Renaissance Writing Jennifer H. Oliver,2019-08-29 In the sixteenth century, a period of proliferating transatlantic travel and exploration, and, latterly, religious civil wars in France, the ship is freighted with political and religious, as well as poetic, significance; symbolism that reaches its height when ships—both real and symbolic—are threatened with disaster. The *Direful Spectacle* argues that, in the French Renaissance, shipwreck functions not only as an emblem or motif within writing, but as a part, or the whole, of a narrative, in which the dynamics of spectatorship and of co-operation are of constant concern. The possibility of ethical distance from shipwreck—imagined through the Lucretian *suave mari magno commonplace*—is constantly undermined, not least through a sustained focus on the corporeal. This book examines the ways in which the ship and the body are made analogous in Renaissance shipwreck writing; bodies are described and allegorized in nautical terms, and, conversely, ships themselves become animalized and humanized. Secondly, many texts anticipate that the description of shipwreck will have an affect not only on its victims, but on those too of spectators, listeners, and readers. This insistence on the physicality of shipwreck is also reflected in the dynamic of bricolage that informs the production of shipwreck texts in the Renaissance. The dramatic potential of both the disaster and the process of rebuilding is exploited throughout the century, culminating in a shipwreck tragedy. By the late Renaissance, shipwreck is not only the end, but often forms the beginning of a story.

Trouble with Democracy Rosich Gerard Rosich,2016-01-18 Western political thought has long maintained that democracy, once achieved, is here to stay. This view appears to be supported by successive 'waves of democratisation' across the world but, in truth, the political situation of our time is much more ambiguous. On the one hand, the commitment to democracy seems to be more widely shared than ever; on the other, popular will has ever less impact on political decisions because of alleged constraints in an era of 'globalisation'. Existing democracies suffer from a combination of technocratic governance and populist reactions. Global political communication has foundered with addressing urgent problems such as climate change, global social justice and economic-financial crises. By placing political condition of our time in its long-term historical context, this book radically reconsiders key issues of political thought and gives you a comparative exploration of the current experiences of democracy in several world-regions.

Multidisciplinary Aspects of Design Francesca Zanella,Giampiero Bosoni,Elisabetta Di Stefano,Gioia Laura Iannilli,Giovanni Matteucci,Rita Messori,Raffaella Trocchianesi,2023-12-30 This open access book gathers the contributions from the Design! OPEN International Conference, held in Parma, Italy in May 2022. The conference explored the

multidisciplinary aspects of design starting from its dimensions: objects (design as focused on the object, on its functional and symbolic dimension, and at the same time on the object as a tool for representing cultures), processes (the designer's self-reflective moment which is focused on the analysis and on the definition of processes in various contexts, spanning innovation, social engagement, reflection on emergencies or forecasting), experiences (design as a theoretical and practical strategy aimed at facilitating experiential interactions among people, people and objects or environments), and narratives (making history, representing through different media, archiving, narrating, and exhibiting design). The contributions, which were selected by means of a rigorous international peer-review process, highlight numerous exciting ideas that will spur novel research directions and foster multidisciplinary collaboration among different specialists.

Crafting Civilian Control of the Military in Venezuela Harold A. Trinkunas, 2011-01-20 Unlike most other emerging South American democracies, Venezuela has not succumbed to a successful military coup d'etat during four decades of democratic rule. What drives armed forces to follow the orders of elected leaders? And how do emerging democracies gain that control over their military establishments? Harold Trinkunas answers these questions in an examination of Venezuela's transition to democracy following military rule and its attempts to institutionalize civilian control of the military over the past sixty years, a period that included three regime changes. Trinkunas first focuses on the strategic choices democratizers make about the military and how these affect the internal civil-military balance of power in a new regime. He then analyzes a regime's capacity to institutionalize civilian control, looking specifically at Venezuela's failures and successes in this arena during three periods of intense change: the October revolution (1945-48), the Pact of Punto Fijo period (1958-98), and the Fifth Republic under President Hugo Chavez (1998 to the present). Placing Venezuela in comparative perspective with Argentina, Chile, and Spain, Trinkunas identifies the bureaucratic mechanisms democracies need in order to sustain civilian authority over the armed forces.
